

Bespoke Skills Assessment Tools

for Numeracy, Literacy & ICT

- 
- ✓ 'Own brand' versions
 - ✓ Easy integration with existing systems
 - ✓ Easy contextualisation of questions
 - ✓ Works for the widest range of curricula
 - ✓ Technical and educational advice
 - ✓ Flexible, no-nonsense software licence

Checking a learner's skill level using our tried and tested on-screen tools is as easy as 1, 2, 3...

The table shows the swimming pool temperatures for one week. What is the average (mean) pool temperature for the week?

Day	Mon	Tues	Wed	Thurs	Fri	Sat	Sun
Noon Temperature	31	32	29	29	30	31	28
Degrees Celsius (°C)							

Type your answer here °C

BTL Group Ltd and AlphaPlus Consultancy have created easy-to-use on-screen tools that provide a fast, accurate and comprehensive assessment of a learner's skill level.

The assessments use engaging, interactive questions to assess the widest possible curricula, and the questions adapt to the learner's skill level to maintain the challenge. Learners receive not only a skill level, but a profile of strengths and weaknesses, with an opportunity to review the questions and their answers.
