

FOR IMMEDIATE RELEASE:

BTL is Delighted to Announce the Dates for their Free 2009 Breakfast Briefings

Join Us for Coffee, Croissants and e-Assessments!

Shipley, United Kingdom, January 2009

In March 2009, BTL Group Ltd will be hosting a series of free Breakfast Briefings at various locations around the UK.

These events will demonstrate how BTL's e-Assessment solution, Surpass, is leading the way with highly innovative, scalable, and secure e-Assessments – proving why Surpass is already the system of choice for many leading organisations.

The Breakfast Briefings will include user case studies from SQA (Scottish Qualifications Authority), EAL (EMTA Awards Limited) and AAT (Association of Accounting Technicians) showing how Surpass is helping them to achieve their goals. There will also be an overview of the Surpass system and an outline of the BTL product roadmap.

There will be plenty of opportunities to put questions to our team and our clients –the more we get people talking about e-Assessment and its surrounding issues, the more effective we can make our products and services.

BTL Breakfast Briefings would be suitable for:

- Organisations looking to move from paper to onscreen assessment
- Organisations new to e-Assessment
- Organisations looking for a new e-Assessment solution
- Existing BTL Surpass users
- e-Assessment professionals and academics

BTL Breakfast Briefings are scheduled for:

- Reading – 3rd March 2009
- London – 20th March 2009
- Edinburgh – 31st March 2009

Places at each event are limited. To register and view further information, please visit <http://www.btl.com/events>. Alternatively, telephone Hawa Mahmood on (01274) 203255.

About BTL

BTL is a leading UK owned e-Assessment development and delivery company. With over 1 million certified exams powered by BTL, our content development and delivery tools are helping some of the UK's largest agencies face the challenge of onscreen delivery.

Since 1985 we have been successfully helping our customers exceed their assessment and learning expectations.
